It struck me that you may be interested in taking a look at one or more of these papers co-authored by Steve Jordan, from the EPA Gulf Ecology Division.
The paper entitled "From Scaling to Governance of the Land System: Bridging Ecological & Economic Perspectives" may have some relevance to your work in Bristol Bay... Steve just asked to make sure I let you know that it's a draft and has not yet been peer-reviewed so it shouldn't get distributed outside of EPA without contacting him first....

Best,

Jackie
